

City of Hobart and City of Katowice

---

# World Cities

Canberra March 2018

## Improving the resilience and sustainability

- As host of COP24 the City of Katowice will invite the City of Hobart participation in joint presentations
- exchange of expertise in effective energy use and climate action, governance, adaptation to climate change and education for their communities
- exchange in data and knowledge of climate impacts and modelling to increase resilience adaptability across communities

## International character of start-ups

- establishment of international contacts, internship-exchanges, knowledge sharing, and economic market development through the promotion of start-ups
- Direct collaboration between Enterpize Tas and .... in the field of establishment of international contacts, internship-exchanges, knowledge sharing, and economic market development through the promotion of start-ups

## Culture

- exchange of tutors and teachers in the field of music to leverage off the shared expertise to activate artists globally through digital technologies
- Share knowledge and experience in the development and revitalisation of Hedberg, Hobart and City of Gardens, Katowice

## Academic cooperation and exchange

- academic cooperation between universities and other research and educational institutions under the scope of Erasmus+ programme, Australian Endeavour Scholarships and Fellowships programme, student and staff exchange, study visits and common research projects
